TECHNICAL SKILLS

Languages
Python · SQL · JavaScript

Backend
Flask · FastAPI · SQLAlchemy
REST APIs · MySQL · PostgreSQL

Frontend
HTML5 · CSS3

Data & ML
scikit-learn · MATLAB
Linear Programming

Tools
Git & GitHub · PythonAnywhere

SOFT SKILLS

- Teamwork
- Collaboration
- Public Speaking
- Problem Solving
- Time Management
- Adaptability

MUHAMMAD ABDULLAH HAROON

BS MATHEMATICS STUDENT | DATA & WEB DEVELOPMENT

ABOUT ME

BS Mathematics student at Bahauddin Zakariya University (BZU), Multan. Alongside my studies, I independently design and build technical projects, including INFINITY-X, a self-learning AI chatbot with a multi-mode architecture, HARNECT, a full-stack social media web application, and StockWise, an inventory and expiry-alert platform with machine-learning forecasts. I recently completed a Branch Service Internship at Meezan Bank, where I handled customer account opening and worked with the bank's internal systems.

Backed by a strong math foundation and hands-on experience in Python, Flask and web development, I like learning tools deeply enough to build with them. I am exploring opportunities in tech, AI and finance, and I am open to connecting with people working on interesting problems.

EDUCATION

B.S. Mathematics (7th Semester) — 2023 – 2027
Bahauddin Zakariya University (BZU), Multan
Core subjects: Calculus, Data Analysis, MATLAB

Intermediate (FSc Pre-Engineering) — 2021 – 2023
Government Post Graduate College, Khanewal
Major subjects: Mathematics, Physics, Chemistry

EXPERIENCE

Branch Service Intern — Meezan Bank — 4 Jul – 16 Aug 2026
Jahanian Branch | Account Opening & Operations

- Handled account opening for new customers, checking forms and supporting documents for accuracy and compliance with bank procedures.
- Worked with the Account Opening Form across individual, joint and sole proprietorship accounts, including CNIC, NTN and FATCA-related fields.
- Operated the bank's internal banking software to enter and process customer account records.
- Dealt directly with customers at the branch, guiding them through requirements and account opening steps.
- Gained hands-on exposure to real-world banking operations and branch workflow.

LEADERSHIP & ACTIVITIES

Executive Member — CASPAM COLT — 2024 – 2025
CASPAM Outreach and Leadership Team, Centre for Advanced Studies in Pure & Applied Mathematics, BZU Multan

- Appointed Executive Member of COLT for the 2024-2025 academic year.

Volunteer — Job Fair Event — 17 Apr 2025
Bahauddin Zakariya University (BZU), Multan

- Assisted with event coordination and helped connect students with participating organizations.

LANGUAGES

- English
- Urdu

INTERESTS

- Artificial Intelligence
- Web Development
- Data Analysis
- Finance & Banking

PROJECTS

HARNECT — Social Media Web App — **Live on PythonAnywhere**

Python, Flask, SQLAlchemy, HTML5, CSS3, JavaScript

- Instagram-inspired full-stack social platform with user authentication, profiles, posts and a content feed.
- Designed the database models and built the backend routes and frontend pages independently.

INFINITY-X — AI Chat Learning Bot

Python, Flask, SQLAlchemy, Alembic, scikit-learn

- Self-learning assistant where users upload PDFs, DOCX, images or websites and get summaries, notes, quizzes and MCQs.
- Three-mode architecture (General, Private, Customer) with isolated database tables to keep user and tenant data separate.
- Multi-provider LLM rotation with automatic failover, plus TF-IDF and semantic search; hardened with upload validation, rate limiting and secure sessions.

StockWise — Inventory & Expiry Alerts — **Live Demo**

Python, FastAPI, SQLAlchemy, PostgreSQL, Alembic, scikit-learn

- Inventory platform for small retailers that tells shop owners what to reorder and what to discount before it expires.
- Decision Tree risk model for stock-out and expiry risk (81.5% test accuracy), with FEFO expiry-batch tracking and a purchase-order workflow.
- Authenticated multi-tenant API with role-based access, POS checkout, audit log and 93 automated tests.

Simplex Algorithm Solver

JavaScript, HTML5, CSS3, Canvas

- Interactive linear-programming solver with step-by-step tableaus that explain every pivot; supports Two-Phase and Big-M methods.
- Detects unbounded, infeasible, degenerate and alternate-optima cases; includes sensitivity analysis, a graphical view and CSV / PDF export.

Other Projects

- **Employee Payroll System** *(MySQL)* · **Static Websites** *(HTML5, CSS3, JS)*
- **Haroon Office** *(JavaScript, Canvas)* — walkable 3D portfolio with day / night mode.
- **Modern Calculator** *(Google AI Studio)* — clean, modern calculator web app.

CERTIFICATES & ACHIEVEMENTS

PROFESSIONAL COURSES

DigiSkills.pk, Virtual University of Pakistan × Ignite | DSTP 3.0

Data Analytics and Business Intelligence — **Dec 2025**

Freelancing — **Dec 2025**

Simplilearn SkillUP | Certificate of Completion

Introduction to SEO — **Jul 2025**

Introduction to Affiliate Marketing for Beginners — **Jun 2025**

Web Development for Beginners — **Jun 2025**

EVENTS, INTERNSHIP & LEADERSHIP

Youth as Agents of Behavioural Change (YABC) — **Sep 2026**

Pakistan Red Crescent Society, Punjab (IFRC) | Certificate of Completion

Internship Certificate — Meezan Bank Limited — **Jul – Aug 2026**

Jahanian Branch | Branch Service Internship

Executive Member — CASPAM COLT — **2024 – 2025**

CASPAM Outreach and Leadership Team, BZU Multan | Certificate of Service

CODE MEET 2025 (Agentic AI) — **Dec 2025**

BZU / CASPAM | Certificate of Participation

Seminar: Investment Strategies and Stock Trading Challenges — **Apr 2025**

Zakariyan Google Developer Club, CASPAM Chapter | Participation

English in the Modern World — More Than Just a Language

The Skillset Foundation | Certificate of Participation

Payam-e-Iqbal Interdepartmental Speech Competition — **Dec 2024**

Zakariyan Debating Society, CASPAM Chapter | Certificate of Appreciation
